Natural Harmonics on the Guitar | Cyberfret.com Everything you ever wanted to know about natural harmonics on the guitar but were afraid to ask. A harmonic is a bell like tone that's produced by just lightly touching a guitar string in a specific place with a left hand finger and plucking the string. What we're going to be talking about in this guitar lesson are natural harmonics. String harmonic - Wikipedia A string harmonic is a string instrument technique which uses the nodes of natural harmonics of a musical string to produce high pitched tones of varying timbre and loudness. String harmonics are "high pitched tones, like a whistle's, are produced when the musician lightly touches certain points on a string.

Learn How to Play Natural Harmonics " Acoustic Guitar Natural harmonics are produced at specific locations, or nodes, that divide an open string into equal parts. The pitch is determined by the number of divisions. Dividing the string in half at the 12th fret produces the first harmonic; dividing the string into three parts at the seventh fret produces.
